# TOMBSTONES AND EPITAPHS OF THE CEMETERY OF NEGATIVISM

Negativism is man's greatest self-imposed infliction, his most limiting factor, his heaviest burden.

No more, for here is buried the world's negativism for all time. Those who rest here have died not in vain – but for you a stern reminder.

As you leave this hill, remember that the rest of your life be more positive.

Have a great day! Treat today's life like it's your last – though it is the first of the rest..
